

PEIFER WELDING, INC.

At Peifer Welding, Inc., quality craftsmanship has been hallmark of our company since it was founded in 1965. Our attention to detail is the key to our repeat business, and it is also the reason why we have been hired to fix sub-standard work.

We provide complete precision fabricating and welding services. Our expert certified fabricators have the capabilities to work with a variety of materials including steel, aluminum, stainless steel and alloys. Our welding services include MIG (GMAW), TIG (GTAW), stick (SMAW), arc, plasma, mobile & on-site welding. Spe-

cializing in stairs, railings, mezzanines, porch columns, gates, spiral stairways & platforms, we serve residential, ornamental & commercial construction markets.

In addition to welding and fabricating services, we offer abrasive waterjet cutting for precise and efficient cutting of metal and non-metallic materials.

Peifer Welding, Inc. is committed to customer satisfaction by providing quality work at a competitive price and with the utmost integrity.
